

NUT SPLITTERS - ANS SERIES

CATEGORY: BOLTING SOLUTIONS

KEY FEATURES OF ANS SERIES

- Safe: No flames. No sparks. No risk to volatile surroundings. No hammers or impact are needed. No flying fragments.
- Fast: cut a 3" nut in 20 to 30 seconds vs. Approx. 20 minutes with a hammer & chisel or torch. No damage to bolt or stud threads by calibrating the chisel so that only the nut is cut.
- Easy setup: You can be up & away in less than 5 minutes.
- Versatile: Nut splitters cut the hardest nuts. The range of models offered & the range of each model compares very favorably to the competition.
- Price: A competitive price of the unit plus savings reduces downtime & no damage to costly bolts & studs.

TECHNICAL SPECIFICATIONS

MODEL	BOLT RANGE	CAPACITY	HEX NUT RANGE	OIL CAPACITY	WEIGHT
		ton	(mm)	(cm3)	(Kgs)
ANS5	M6-M12	5	13-19	15	0.8
