

TORQUING PUMP - APPT SERIES

CATEGORY: BOLTING SOLUTIONS

KEY FEATURES OF APPT SERIES

- Our pumps deliver high performance and high durability to handle the rigorous demands and harsh conditions of bolting applications.
- Featuring a comprehensive set of components, including a filter-lubricator assembly, air muffler, adjustable relief, and a 12-foot remote-controlled pendant on all models.
- Pressure up to 10,000Psi / 700 bar, based on industrial applications.
- Applicable on one to four wrenches simultaneously.
- Compact automatic three stage flow, can start in high pressure.
- The high efficiency cooling system makes the pump suitable in extreme environments.
